

Wood Preparation Datasheet

1.) GENERAL INFORMATION:				
Client:				
Contact person:				
Address / phone / fax:				
Kiln line number / name:				
Date:				
Aim of client:				
level above sea [m]	ambient temperature [°C]		humidity of air [%]	
	average	maximum	average	maximum

2.) Information:
Delivery of material – rail or truck?
Available Quantity of wood?
Max. grain size ?
Contents of harmful materials as nails, lacquer or impregnating agents?
Humidity %, if known?
What percentage of substitution for the usual fuel should be reached? Or: (fuel feed rate/h)?
Kiln capacity?
What kind and amount of fuel is used currently?
What burner is used?
Use in primary firing or in kiln inlet?
